	Are you happy for your compliment to feature on the website?		

Everybody likes to get a compliment and we're no exception. Apart from knowing that our services and staff are doing well, getting compliments from you can be really useful as they show us what we're doing that really makes a difference and then we can try to ensure that we do more of that in future.

We'll always respond to you when you send in a compliment, even if it is just to say thank you
